When I was in sixth, I saw a girl to do harass but in the moment I did not realize it. When I saw that she was taking refuge in the toilets to cry at the moment I understood I felt such a strong pain, that I would not arrive more to move. It was necessary, that stop him, it was no longer possible.
! STOP BULLYING !
When I was small, I did not have many friends. More, they girls in my class found me bizzare because I was different from the others. I was experiencing everyday nasty comments, on my clothes, my physical – But the day I arrive at the college, I have managed to make me friends because the were like me. So did not the people who harass you raleys you.
Tomorrow should be a better day
Think's at your future
During my year of fifth, I have assisted at a bullying. A young girl of my age was harassed by class mates, because she was fat. So she saw pictures of her all over the internet. She changed four times college and finally found her place in high school.
Seeing someone is being harassed it's not funny. Because we would not like to be at her place. We wonder what could be done for person. But we are scared, scared that if we do some things, the aggressor is against us too but if we are afraid of the person and that we do not react, that we are also complice de l'aggresseur also, we do not think about us and react ! Because if you would be in that place, you would like that someone defends you!

ADVICES

I have bullied people, for 3 years. I have bullied weak persons. I have insulted, scammed, threatened, hit... Why did I do that? Because I hated my life: my parents were separated, my dad disappeared, my mum took refuge in alcohol. When I came back home, I had to confront my problems. At school, people saw me like a strange girl. My mother stayed hopeless, but I wanted people to lose their hope. When girls cursed, that made me, I thought that I was not the only girl who was hurting. I wanted people to think I was scared of nothing, whereas I was scared of everything.

You're unique!

You're good!

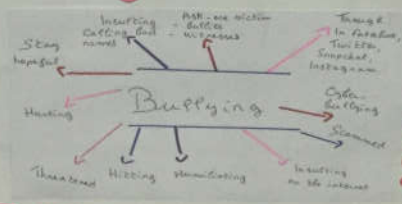
You're the best! ☺

I had a lot of friends and I never really alone. My mum my brother, my uncle. Unfortunately, he humiliated and threatened me. It lasted 1 years. My friends were present when they said that, but my friends found this normal. I have already thought about suicide myself, but I didn't mean IT. Then I have been depressed.



There was a boy in my class. He bullied me... Everytime, everywhere, he taunted me, he hit me and he kicked me even if I was not ok. That was very hard because of the other people that told me: "Why don't you have any reactions? Are I didn't know what to think about [illegible]. Finally, today I'm ok and happy. Everything is finished.
I think, he had personnal problems.

I have finally been bullied, when I was 12 years old. John pulled down my trousers and took a photo. I have fake, there was fake street on Snapchat and 1215 view and 630 likes on facebook. The following day, all the school humiliated me and made fun of me. I was isolated even today.

# ANTI-BULLYING CAMPAIGN

You are smart ☺

TO BULLYING VICTIMS

- You should speak to someone.
- You ought to report personally when you are hit.
- You had better not stay isolated.
- You had better not remain silent.
- You had better say stop.

I've already been bullied during different parts of my life, in primary school and also in middle school, pupils used to tell me that I was too skinny, too ugly, that I wasn't dressed well. Even after school, people insulted me through emails, one of them [illegible] me from the window for a long time. They told things like "kill yourself", "you don't deserve to stay with us". They were against me and the there was just following because they thought it was funny and cool to do this to someone who [illegible] and not confident in middle school, it was not the same, they used to talk about my personal life, "you" is useless", "you is [illegible]". They wanted to humiliate me and to bring me down. I wasn't confident with myself but I discover that I wasn't the only one in people were in the same situation but they were afraid and were still afraid to speak out.
That's why we should fight against bullying!

You have beautiful Hair ☺

TO BULLYING

Cyber bullying with the use of social networks
The bullies should persecuting the other because they are ugly, because they are big or thing, or because they are black or white. The bullies do not realize that it can take big proportions even if sometimes the bullies take out these often very well.
Opinion:
If the bullies hurt the others it is because they even lived things and if they are not we speak about it and they prefer to hurt the others or then his has there who make that only out of spite advice.
Advice:
- to speak to the specialists to find reasons for this wickedness. To stop, there are several therapies to take after sleep.
You should sue him or her. You should apologize to the victims. it is necessary. Stop because it is dangerous he can have an fine.

STOP BULLYING AT SCHOOL
As for as I am concerned, I acknowledge I have already bullied someone. Actually, two years ago, in the eighth grade, I unfortunately threatened and hit a year seven. I was alone and I thought being with the bullies were cool...
Now, I regret these actions because maybe I made him lose his confidence. Nevertheless, the majority of the pupils in my school have already been insulted and I wanted to do as well as my classmates.
I also have already posted insulting comments on social networks because it was unreal and I could not imagine that it could be hurtful for anyone.
Yes, I bullied someone because when you did not, you were seen as a weak one and I have already been insulted by others and I wanted to do the same to my classmates. It was so painful for me but, on the other side, I have realized that it was very hurtful for others.

Testimony
When I was twelve years old, I was a victim of bullying. At this time, I was naive and I wasn't self-confident. Step by step, I saw people laugh at me. It was a group of boys who they were bigger than me. A few weeks later, they had started pushing me in the corridor and in the school and hit me. Since then I have not been bullied because my friends, helped me. Last and to see my principal teacher and the director of my school. And the parents of my bullies were asked to come to school they have been excluded definitely because it isn't the first time they bullied someone. Today, After my experience, I have decided to make an anti-bullying campaign.

Hello, my name is Raphael.
I was bullied at school by comrades because I was big. They began by photographing me and to make a photo montage with a pig's head.
Then they shared this photo on the social networks. The next day, when I saw this photo, I felt humiliated...
Afterwards, the events got worse: each time in the corridors, the pupils called me "big pork"; every day at the canteen, I ate alone and my comrades considered me as a truck and threw me food on my tray. I fell into a depression and I even thought about suicide. Fortunately, a new pupil arrived. He was a former bully victim. He gave me lots of advice to don't lose hope like doing sport. And the following year, I have lost weight with sport. I met new friends and I continued my studies normally. Today, I'm a company leader and I'm very grateful to my rescuer and friends because without them, I think I couldn't be what I am today.
